What do you consider quick turnaround on the asbestos report?

Sean Gavlas

Weston Solutions, Inc.

Recommendation:

Asbestos Assessment: Need quick turnaround on data and quick turnaround on report

Coating/Paint Chip Sample: 1 sample from chips taken from all 4 sides of the building - analytical: asbestos (if potential galbestos), metals (potentially lead), PCBs (potentially galbestos coating w/ PCB – must add Arochlor 1268 to list of Arochlors)

Wipe Samples Building (interior/exterior): approximately 12 plus QA/QC

Drainage Ditches: the ones we talked about use same sample scheme.

Need fairly quick turnaround – 7 days if possible.
